YOUR FRIENDS AT THE ZOO SAY...

IMMUNIZE BY TWO!
Ellie the Elephant says...
VACCINES KEEP YOU WELL

Tommy the Turtle has more to tell...
Vaccines keep you from diseases like these...

- Mumps
- Polio
- Lockjaw
- Diphtheria
- Measles
- Meningitis
- Hib
- German Measles
- Whooping Cough
- Chickenpox
- Rotavirus
- Pneumococcal Disease
- HPV
- Hepatitis A & B
- Influenza
...Leonard the Lion knows they are truly a breeze!
Sally the Snake knows vaccines keep you feeling better...

...so just visit your Doctor or Local Health Center!
Join in the chorus with all your friends at the ZOO...

IMMUNIZATIONS BY AGE TWO ARE IMPORTANT TO YOU!
An immunization registry keeps shot records secure,
Whenever you need them they’ll be there for sure,
So make sure your doctor or nurse does their part,
By storing your child’s records in both the registry and chart.
A Message for Moms, Dads, and Grandparents too...

Children also need a medical home... to help them stay healthy while they grow.

Regular visits to a doctor or nurse can help with what ails them and help mend their hurts.

You deserve a round of applause and all the credit goes to you... for making sure your babies and toddlers get all their vaccines by age TWO!
Children Need Vaccinations at the Following Ages:

- Birth
- 2 Months
- 4 Months
- 6 Months
- 12 - 23 Months
- 4 - 6 Years
- 11 - 12 Years

Additionally, influenza (flu) vaccines is recommended every year for everyone 6 months and older.

To best protect your child from dangerous diseases, it is important to follow the recommended vaccine and get all of the recommended vaccine doses on time.

View the schedule at:
